

Entry Projector

PJ WXC1110

RICOH
imagine. change.

A quality projector that fits in your pocket.

When you need a projector that's as mobile, versatile and as flexible as you are, this device is the answer. Easy to carry and enabling you to project almost anywhere when you're on the move, it's ideal for media and presentations in offices and classrooms, so you can always get your message across. It's quick to set up and easy to use, and of course, you'll get supreme reliability and all the innovations you need to make your presentations shine.

- LED projection with 20,000 hours' life (in bright mode) – no need for lamp replacement so it's low maintenance.
- Short-throw projection – throw ratio 0.8 - that's perfect for small spaces, classrooms/meeting rooms as well as for use on general-sized screens.
- Very compact in size, superlight in weight and can be carried anywhere.
- 600lm brightness and clear image for its size.
- Perfect for being on the move, thanks to its battery attachment option.

Small size. Big impact.

Presentations made seamless.

This new model has been designed with mobile working in mind. And because it's so light and so compact, your presentations and projections can go wherever you go. So if you need to move from place to place internally, or you're a specialist that's always out of the office, this is the projector to support your more joined-up work-life.

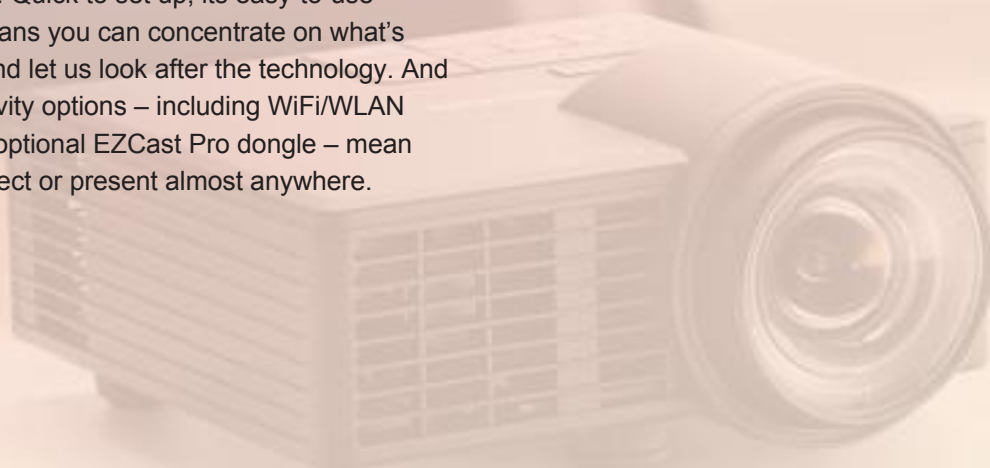

Power up. When the power's down.

The extra-long life LED bulb, which means you don't have to change the lamp, is one innovation. The short throw projection, reliability and 600lm in such a compact device are three others. But what's really impressive is the versatility of its power options. Ideal for areas where the main power supply is unstable or non-existent, there's a battery back-up with means you can keep on presenting where other projectors would stop.

Get connected. Wherever you are.

No matter if you're an expert at presentations, or just starting out, this projector makes everything easy for you. Quick to set up, its easy-to-use interface means you can concentrate on what's important, and let us look after the technology. And the connectivity options – including WiFi/WLAN through the optional EZCast Pro dongle – mean you can project or present almost anywhere.

PJ WXC1110

FULL SPECIFICATIONS

GENERAL

Projection system:	0.45" WXGA DMD Chip
Resolution:	1,024,000 pixels (1,280 x 800)
Panel:	Panel size: 0.45 inch Aspect ratio: 16:10
Brightness:	600 lumen
Colour reproducibility:	16,700,000 colours
Contrast ratio:	600:1
High contrast ratio:	40,000:1
Projection screen size:	25" to 200"
Projection distance:	0.43-3.44 m (from projection window to the screen)
Light source:	RGB LED
LED life:	Bright mode: 20,000 hours Eco mode: 30,000 hours
RGB compatible signals :	Real display: WXGA (1,280 x 800), XGA (1,024 x 768), SVGA (800 x 600), VGA (640 x 480) Compressed representation: UXGA (1,600 x 1,200), SXGA (1,280 x 1,024)
Input signals:	NTSC, PAL, SECAM, NTSC4.43, PAL-M, PAL-60, 50 Hz (mono), 60 Hz (mono)
